MEDIA ADVISORY - PHOTO OPPORTUNITY - RIBBON CUTTING CEREMONY

St. George Logistics Opens New Specialty and Temperature Controlled Center in the Heart of Miami-Dade County

(MIAMI, FL, May 22, 2017) - On Tuesday, May 23rd, 2017, at 6:30pm, St. George Logistics will open its new state-of-the-art ocean and air container freight station (CFS) and specialized 3PL center in Medley at 8502 NW 80th St.

Members of the media are invited to join County and City officials to be part of the ribbon cutting ceremony and tour the 105,000 square foot Free Trade Zone facility.

St. George Logistics is North America's largest provider of outsourced container freight station (CFS) services and a leading provider of value-added warehousing and distribution services.

"Miami is becoming an important hub for St. George Logistics as we provide our customers with a comprehensive menu of import and export solutions, access to the industry's fastest and most efficient intermodal transportation network, and industry-leading information technology," said Chris Jamroz, Executive Chairman of St. George Logistics.

"With 32 port and inland facilities totaling over five million square feet, a talented team of more than 1,100 logistics professionals and a national network of more than 80 partner facilities, the new Medley state-of-the-art facility increases our capabilities in outsourced CFS and leading position in value added warehousing and related services," added Hessel Verhage, St. George Logistics' chief executive.
