

NOTICE: Expected Delays Due To Rail Closures In The Chicago Area

Dear Business Partner,

Several railyards in Chicago have announced that they are restricting in-gating of export containers. CP/Shiller Park has informed that no export containers will be received until at least 2/16. CSX Bedford Park has indicated that they are not providing return authorizations until further notice. These closures will result in delays in return the rail, possible yard storage for holding loaded containers and additional chassis days.

We will advise as soon as information becomes available.
